

JOB OPPORTUNITY: SCIENTIST

XEDEV

XEDEV is a spin-out (°2012) from PROCEPT, having more than 20 years of experience in engineering, manufacturing and worldwide distributing its “state of the art” R&D process technology.

XEDEV is a young and dynamic CRO/CDMO specialized in formulation and process development for solid dosage forms through drying, agglomeration and coating processes. With the up rise of Spray Drying technology in many industries, and the amount of projects realized by the XEDEV team in this field, XEDEV has become a center of excellence in formulation and process development.

XEDEV serves Pharma, Bio, Food, Feed and Chemical industry in a Global market and makes the difference by combining engineering, process, formulation and analytical know-how to support customer’s projects. More information: www.xedev.com

For our new facility in Zele, we are looking for scientist to strengthen our team.

JOB DESCRIPTION

As a Scientist,

- You are involved in different projects both in early-stage development (process and formulation) as in clinical development.
- You are part of the scientific project team.
- Together with the scientific project team, you will discuss the project plan, execute the trials and afterwards analyse and interpret the results.
- You assist in reporting
- You keep track of the relevant scientific literature
- You have the opportunity to increase your process and formulation knowledge during internal (and external) training sessions/conferences.

PROFILE

- A Master degree in Sciences ((bio)engineering, biomedical or pharmaceutical sciences)
- Minimum of 1 year of hands-on experience in formulation and/or process development in the food/biotech or pharma industry. Processing (e.g. spray drying, extrusion, coating) and analytical (e.g. UPLC, DSC, in-vitro dissolution) experience is a plus. Nevertheless, recently qualified masters will be considered.
- After appropriate training able to work independently
- Flexible, problem solving, critical mindset while being accurate and quality driven
- Creative, curious and eager to learn

- Self-motivated, enthusiastic personality, team player with a can do and solution-oriented attitude
- Excellent Microsoft Office skills (Word, Excel, PowerPoint and Outlook)
- Fluent in Dutch and English, both written and orally

WHAT WE OFFER

XEDEV is a growing company with a young and dynamic environment with space for creativity and social events. We offer a contract with a competitive salary, generous benefits package and flexible working hours.

APPLY

When you have interest in above vacant function, we ask you to send us your CV and motivation letter to alien@xede.com. You will be invited for an interview when your profile matches.
